

Example SharePoint Branding Projects Completed by SharePoint Solutions (www.sharepointsolutions.com)

We assisted Central Michigan University with the design and deployment of SharePoint Portal Server as a Student Portal. Approximately 20,000 students use the portal on a daily basis. Each student has his/her own My Site. Below are some of the visual designs that we presented to CMU:

Here is the design that was selected:

This is a WSS theme development project we did for BP. WSS Site Creators can choose to apply this theme when they create a site:

dct

Done Internet

This was created for McCann-Erikson, the advertising agency for Exxon-Mobile, Microsoft and others. They preferred the "tabbed" navigation style.

A Commercial Building company wanted its portal to have similar graphics and colors as its public internet site:

United Methodist General Board of Higher Education:

The screenshot shows a Microsoft Internet Explorer browser window with the address bar displaying `http://portal.jumpstart.local/sites/kpt5/default.aspx`. The page title is "Home - KPTeam5 - Microsoft Internet Explorer". The browser's menu bar includes File, Edit, View, Favorites, Tools, and Help. The address bar has a search field and a "Go" button. The page content is for "The United Methodist General Board of Higher Education and Ministry". The site name is "KPTeam5" and the page is titled "Home". There is a search box and a "Modify Shared Page" link. The left sidebar contains navigation links for Documents, Pictures, Lists, Discussions, and Surveys. The main content area has sections for Announcements, Events, Shared Documents, and Links. A photo of a group of people is displayed in the "Content Editor Web Part" section.
